

MNI API

MNI API Solutions for Data & Content Feeds

Unlock seamless access to **MNI's comprehensive range of premium content and services** with our powerful [cutting-edge] **API data and content feed**. This headless solution enables seamless integration of MNI's trusted intelligence and analysis on the Global Fixed Income, Foreign Exchange, Energy and Credit markets, along with real-time market data directly into your systems. By leveraging the API, you gain direct, flexible access to MNI's valuable insights and updates, without the need for a front-end interface. Whether you're building trading platforms, financial tools, or custom applications, our API feed delivers tailored data to keep you informed and ahead of the market—efficiently and securely.

Stay ahead of the market with instant updates and customized data delivery tailored to your business needs—all through a streamlined, scalable API solution.

MNI API Overview

The MNI News API provides data via two channels:

- Historic data can be requested via our HTTP Rest API
- Real time data is delivered over STOMP-over-websockets messaging API

Content Available:

- Real-time Fixed Income Bullets Feed
- Real-time FX Bullets Feed
- Real-time Credit Bullets Feed
- Real-time Energy (Oil, Gas & Power) Bullets Feed
- Real-time Policy Mainwire Feed
- Real-time Economic Macro Data Feed
- High Speed Calendar Feed
